Abstract

Abstract summarizes your work (project) and should not describe the project. Summarize every chapter by one sentence and put all those sentences here, and you might get a good abstract. A good abstract always fits within one page.

Preface

This report was prepared in relation to the Industrial Training Program for Engineering Undergraduates conducted by University of Ruhuna. As an undergraduate this training was a great opportunity for my future carrier. Accordingly I started my training under State Development and Construction Corporation. I was assign to two Bridge site of SD&CC during my training period of 12 weeks from 27th of November 2017 to 16th of February 20018.

I worked at SD&CC site at Dambewelana for 5 weeks and 7 weeks at SD&CC at Allagala. This training was a new experience for my life. In this report I have included the experiences and knowledge that I acquired during my training.
